

BOND-III

FULLY AUTOMATED IHC & ISH STAINER

MAKE A DIFFERENCE

ELEVATE LABORATORY STANDARDS

- » Highest throughput per square metre.*
- » Total tissue care.
- » Connect to a huge range of lab tools such as CEREBRO specimen tracking and workflow management system.

* Compared to other leading free standing, IHC and ISH stainers.

YOUR NEXT STEP ILLUMINATED

- » See reagent levels and status changes at a glance.
- » Unhindered access to bottles, so you can fill anytime.
- » Real time alerts and volume measurements.

EXCEPTIONAL CASE TURNAROUND TIME

- » Complete cases in an average time of 2.5 hours.
- » Three independent trays allow for flexible case management.
- » Antibodies, probes and detection systems can be accessed anytime.
- » Spare capacity for urgent cases.
