

JOB VACANCY

Complex Cut Up Scientist

- **Histology – Full Time**
- **Gippsland location**

This is a career opportunity for an enthusiastic, appropriately qualified, experienced Medical Scientist to join our Histopathology team located in Latrobe Regional Hospital, Traralgon Victoria.

This senior scientist role is responsible for completing the cut up for complex and non-complex histological samples in our well-equipped hospital laboratory. The role will be well-supported by an onsite histopathologist and laboratory team.

This is a rare opportunity for an ambitious Histology professional to make their mark in a large, premier Anatomical Pathology practice experiencing growth and transformation.

Come and join a team dedicated to providing a quality service for our patients and practitioners.

To be considered for this role you will possess:

- appropriate tertiary qualifications - Bachelor of Applied Science (Med Lab Science) or similar relevant qualification
- Graduate Certificate of Surgical Pathology Preparation (Uni SA) or equivalent will be well-regarded
- current histological cut up knowledge & experience
- strong attention to detail & effective problem-solving skills
- excellent verbal and written communication skills

Applications including a cover letter, resume and professional referees to:

Marissa Lasham, Chief Scientist
03 9244 0350 0421 054 894

Email: Marissa.Lasham@dorevitch.com.au

Please note, only applicants with appropriate skills and experience will be considered & contacted.
